

Tool roll pattern

Tool/pencil/knife Roll

Its a intermediate project, you should use soft leather around 1.5mm-2mm(4-5oz) thick. When you print out the pattern you need only page 3-5 remember to do 100% scale or actual size on A3 Paper size. main part of the roll should be 21cm by 56cm or you if you don't want to do exactly same you can modify it in many ways, if you want to store kitchen knives you have to make it way wider than one in pattern, if you want to store pocket knives you have to make shorter pockets and whole roll narrow, If you do pencil roll the pockets can be around 2.5cm wide and same height but that's just few examples... you can be creative her.

What you need for this project:

rotary cutter or utility knife, bone creaser, edge slicker, tools for sewing or sewing machine, hole puncher 2.5mm or suitable one for your rivets, you can stitch strap to the main body as well, corner punching tool I used 25mm here, you will need big piece of leather about 60cm by 50cm all depends on what size of roll you want to do...
